#GBS20 Gloucestershire Corporate Social Responsibility Forum

Business Purpose Beyond Profit: The Corporate Social Responsibility Forum
Customer, staff and shareholder expectations are on the rise. More and more companies are being held accountable by stakeholders to operate with care for society and the environment – but where do you start? CSR is a topical discussion in today's business environment. Social Enterprise Businesses, third sector, not for profit. So where does the line come between working to deliver profit for shareholders or working to deliver end goals that add value to society? In a supply & demand economy, how does that work for private businesses and for the third sector and what are the outcomes that will add value in either case? Join us and join the conversation.
