If you have any questions for the panel prior to the event, you can email them to BI20.2@business-shows.co.uk (please quote the event title in your email).

Wednesday 18 November, 3:30pm

BI20.2 Construction Forum

Construction is one of the key drivers of the UK economy, contributing to around 6% of the UK GDP. According to recent estimates there are currently 2.3 million people working in the construction industry; circa 6.5% of the UK labour market. The construction sector acts as a key enabler to other sectors in both the public and private divisions. Its scope is large, ranging from the building of hospitals to the development of new office space; it is essentially a key initiator of the process. As repair and maintenance is a significant part of construction, construction is not only an initiator but also a link between the old and new. Our Gloucestershire Construction Forum Brings together Industry professionals from around the county in a conversation that takes a snapshot view of the sector at a point in time.

Gerald Crittle

Gerald manages the Gloucestershire Construction Training Group's (GCTG) Digital Leadership in Construction programme, one of five projects funded by the CITB to help the construction sector adopt digital solutions to improve business performance.

His Business, G-Acceleration, established in 2009, offers practical solutions to help businesses improve productivity and efficiency across the broad spectrum of business sectors.
