## #BI21.2 International Trade Forum

Development of International trading opportunities comprises one of the most important routes to building a strong economy. Our International Trade Forum brings together professional advisors and businesses involved in international trading from across the region. Following a very difficult year in 2020, with Covid 19 lockdowns, Brexit and some of the most challenges we have ever known, the business community is now thinking about the recovery that we can look for over the coming months and years. For #BI21.2 we are looking especially at the food and drink sector and the scope for developing export opportunities in different places around the world
