## #BI21.3 Construction Forum

Learning at Work Week  
17th to 23rd May 2021

Our #GBS21 | #BI21.3 - Gloucestershire Construction Forum takes a special focus on workplace learning in the construction sector. The Forum explores how technology can be used to support workplace learning and development in construction. During the session we will discuss the many different solutions available, including low cost options. Specifically, this focused construction forum would be appropriate for those working in construction with a responsibility for learning and will include:

- Owners and managers
- Managers and heads of departments
- HR Managers
- Training managers
- Suppliers of digital solutions that support learning and development

The event takes place during Learning at Work Week, a national event set up to build learning cultures at work. It aims to put a spotlight on the importance and benefits of continual learning and development.

### Gerald Crittle

Gerald manages the Gloucestershire Construction Training Group's (GCTG) Digital Leadership in Construction programme, one of five projects funded by the CITB to help the construction sector adopt digital solutions to improve business performance.

His Business, G-Acceleration, established in 2009, offers practical solutions to help businesses improve productivity and efficiency across the broad spectrum of business sectors.
