#BI21.4 - Equality, Diversity and Inclusion Forum

What does it take for a business to fully embrace equality, diversity and an inclusive culture in the workplace? What changes need to take place with people, culture, systems and processes to fully realise the business benefits? Employment on merit or positive discrimination? What part does personal cultural experience of owners and decision-makers play? We will be sharing success stories and unpacking some of the challenges to embedding these transformational opportunities. We discuss these topics following a pandemic year and a recovery that allows us to take a fresh look at the future so that we 'build back better' together.

Tony Solomon

With over 25 years experience in senior marketing roles with an international financial services provider Tony now devotes his time to the not-for-profit sector.
